EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Aaron Waxler on May 19, 2004.

The application has been amended as follows:

Claim 8 has been canceled.

Reason: claim 8 recites the same limitations of claim 1.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

Claims 1-7 and 9-12 are allowable because the prior art fails to teach or suggest a band-pass filter (such as figure 2) having FET capacitors (M1-32, M'1-32), each FET capacitor having source connected to drain at a common connection point, and the common connection points are coupled to each other through a capacitor (C1).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
